

VETERINARY TECHNOLOGY

A student who successfully completes an average of 15 credits per quarter will be able to earn the degree in 8 quarters (24 months).

This program is designed to provide the student with skills for entry-level employment as a veterinary technician. Students will be challenged by instructors to learn and apply skills relative to veterinary support, client communication, and office management as well as patient care. Students prepare for the Veterinary Technician National Examination (VTNE). General education classes help students develop analytical, inferential, communication, independent learning and computational skills.

The goal of this program is to prepare graduates who are able to:

1. Demonstrate proficiency in essential veterinary technology skills
2. Demonstrate comprehension in the following veterinary areas: pharmacology; surgical preparation, assisting and anesthesia; dentistry; laboratory procedures; animal care and nursing; diagnostic imaging; and basic animal physiology
3. Record patient medical information using appropriate veterinary medical terminology
4. Differentiate between normal and abnormal physical status in common animal species and take appropriate corrective measures where indicated
5. Accurately calculate, dispense, and explain dosages of medications
6. Use appropriate professional behavior in the clinical setting
7. Demonstrate appropriate written and verbal communication skills
8. Evaluate the quality of multiple viewpoints, arguments, and evidence and distinguish between fact and opinion
9. Exhibit social responsibility and examine the diverse cultures and value systems of our global community
